  2. Getting Together by Fisher and Brown
  3. Getting Past No by Uri

• Recommended. (Available at bookstores and online.)
  2. Beyond Machiavelli by Roger Fisher.

2 Course Description

The course deals with theory-based conflict resolution techniques by having students play the roles of disputing parties in a variety of negotiations.

Mechanics & Expectations:

1. This class is meant to teach skills, so attendance is required.
2. I am teaching a very specific technique, and you will need to practice it whole-heartedly.

- **No Bargaining:** The techniques practiced are **not bargaining techniques**. If you believe you are a hard bargainer and want to practice those skills you will not be doing that here.
- You will role play/work through conflicts weekly.
- The course includes a rigorous practice of breathing and exercise (for voice, posture) which increases focus, perspective, and concentration. These techniques combine with theory in ways classically used in conflict reduction. If this is a problem for you, see me privately to make arrangements.

3. With respect to university rules on plagiarism you are responsible for knowing the information at: http://www.camden.rutgers.edu/RUCAM/info/Academic-Integrity-Policy.html

(c) Pop quizzes to make sure everyone fully understands the material.

- These will figure into one of the grading categories above, as appropriate.

4 Course Policies

1. Attendance

- If you don’t attend you won’t learn the techniques and this will distract others.
- Therefore, if you miss three weeks of work you will receive an F for the term.

2. Essays (weekly & final)

- Late assignments will receive a reduction of one letter grade.
  - The only exception is for documented illness or family emergency.
- All essays must be written in grammatical and clear language. They must contain clear logical arguments.
  - There is a 10% deduction for essays which do not meet this requirement.
  - Please use the Learning Resource Center if you have any concerns about your writing skills. Location: http://learn.camden.rutgers.edu. Room 231 Armitage.
  - I am happy to work with you on assignments during my office hours.

- Class behavior regulations:
  There are certain expectations that I have concerning students who take my courses. My experience is that classes function best when students abide by these expectations. They are:

(a) You are expected to come to class on time.
  - Do not come in late. This can be very distracting.
  - Also, if you come to class, you are expected to stay for the entire class period unless you seek permission beforehand.
(b) If you attend class, you are expected to pay attention.
  - In some classes students feel anonymous and there is a tendency to interact with friends. Again, this can be very distracting. You may not do this.
  - Having to repeat instructions, requirements, etc. for students who were talking with friends wastes other students’ time.
(c) If you must use the facilities during class you must not walk in front of the speaker or allow the door to slam on entering and exiting.
(d) You may not use electronic devices without permission and then only to record class notes.
(e) You may not engage in any behavior that detracts from the class learning experience.

- **Penalties for violations of behavior policy:**
  - Students who violate these rules will be warned for the first violation.
  - A second violation will result in a 5-point deduction from the take-home final.
  - Any subsequent violation will result in the loss of a letter grade on the take-home final.
